

Schedule

October 12 (Fri.), 2018	Application Deadline
December 3 (Mon.), 2018	Explanatory Meeting ※ Release of the Floor Plan and explanation about the venue specifications, regulation on layout, booth setting-up and removal and promotional activities. Venue and place will be announced to exhibitors early November
Early January 2019	Dispatch of Invitation cards ※ We will send the requested amount of Invitation cards for free
January 31 (Thu.), 2019	Deadline for diverse services (Electricity, Rental furniture, etc.) ※ All application forms will be distributed during the Explanatory Meeting.
March 15 (Fri.) - 17 (Sun.), 2019	Booth construction, decoration setting-up
March 18 (Mon.) - 20 (Wed.), 2019	Exhibition Schedule
March 20 (Wed.), 2019	Removal (17:00 - 21:00)
21 (Thu.)	Removal (9:00 - 17:00)
Mid-May, 2019	Exhibition Report

The Long-awaited Exhibition for Grinding Processing to be Held in Japan!

Grinding Technology Japan 2019

Trade Show for Grinding Machines and Tool Grinding Machines

Access

MAKUHARI MESSE

2-1, Nakase, Mihama-ku, Chiba-shi, Chiba 261-0023, Japan
Phone : +81-43-296-0001

<https://www.m-messe.co.jp/en/>

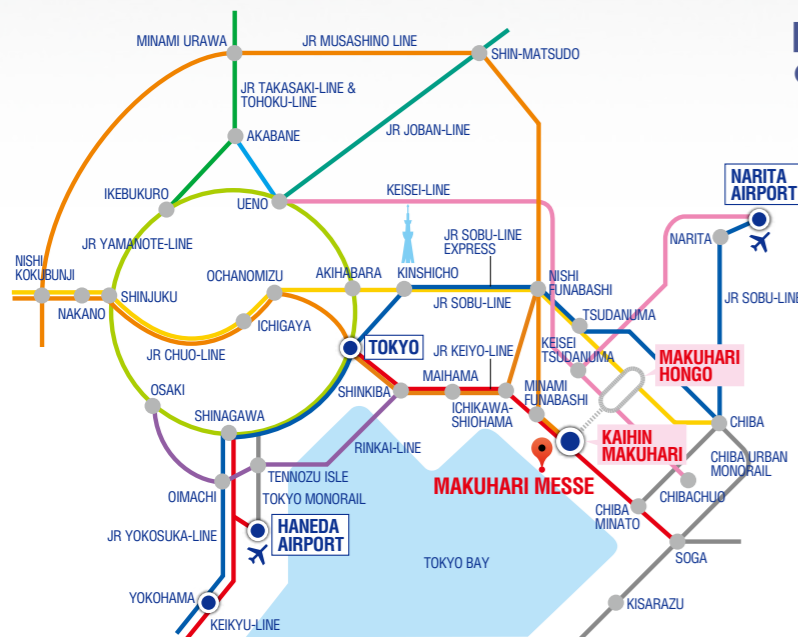

By public transportation

By Train

- Approx. 30 minutes from Tokyo Station or 12 minutes from Soga Station to Kaihim Makuhari Station on the JR Keiyo Line. 5 minutes walk to Makuhari Messe.
- Approx. 40 minutes from Akihabara Station to Makuhari Hongo Station on the JR Sobu Line. 15 minutes by bus to Makuhari Messe.

By Bus

- Limousine Bus services from both Tokyo international Airport (Haneda) and Narita International Airport are available.

March 18 [MON.] – 20 [WED.], 2019 10:00~17:00

Introduction

The dedicated exhibition for grinding processing, "Grinding Technology Japan 2019" will be held over three days from **March 18 (Mon) to March 20 (Wed), 2019 at Makuhari Messe Exhibit Hall 1.**

Grinding is a processing technique that is responsible for the finishing process and requires high precision and quality. Therefore, high performance, as well as operators that possess high performances, are required for devices, tools, software and peripheral equipment. This involves unique high-level knowhow that do not exist in other processing fields.

"Grinding Technology Japan 2019" is an exhibition geared towards technicians, engineers and grinding processing researchers involved in grinding processing, as well as for people who wish to learn more about them. The exhibitors have prepared the best answers for any visitors with questions based on the latest technologies and knowledge.

The show will have the chance to have as a special sponsor the organization "Grinding Forum 21," comprising primarily of members from the regrinding industry. The member corporations of this forum each possess high grinding processing technologies and knowhow, and provide original products and technologies against this backdrop. Various technologies relating to the manufacturing of cutting tools will also be displayed at the exhibition.

The Japan Society for Abrasive Technology, famous for conducting research in the grinding field, will also participate in "Grinding Technology Japan 2019" as a "special collaborative" organization. It is indisputable that in addition to technologies and technical skills, theoretical support is an important factor in order to develop grinding processing. In addition to explaining the processing theory from an academic standpoint, the Japan Society for Abrasive Technology will also be discussing the outlook of the future of grinding processing technologies during the show.

Outline

Date	March 18 (mon.)-20 (wed.) 3 days (will be held biennially)
Opening hour	10:00 - 17:00
Venue	Makuhari Messe
Admission	Free
Organizer	JAPAN INDUSTRIAL PUBLISHING CO., LTD.  日本工業出版 Fuji Sankei Business-i 
Project by	Japan Industrial Publishing Co.,LTD Machine and Tool
Special Partner	Grinding Forum 21
Collaborating Organization	The Japan Society for Abrasive Technology
Cooperate Organizations	Japan Machine Tool Builders' Association/Japan Machine Tool Importers' Association/Japan Machine Tool Distributors Association/ Japan Forming Machinery Association/Japan Precision Machine Association/The Japan Cutting & Wear-resistant Tool Association/ Japan Machine Accessory Association/Japan Precision Measuring Instruments Manufacturers Association/Japan Grinding Wheel Association/Industrial Diamond Association of Japan/Japan Optical Measuring Instruments Manufacturers' Association/Japan Fluid Power Association/Japan Gear Manufacturers Association/The Japan Society of Mechanical Engineers/The Japan Society for Precision Engineering/Japan Fluid Power System Society/Turbomachinery Society of Japan

Exhibition Subjects

Grinding machines, Tool Grinding machines, Grinding wheel, Abrasive chips, Truing machines, Precision measuring, Cutting tools, Cutting oil, Filters, Parts and accessories, etc.

Visitors Categories

Technologists, Researchers, Manufacturers, Students, etc.

Concurrent Events

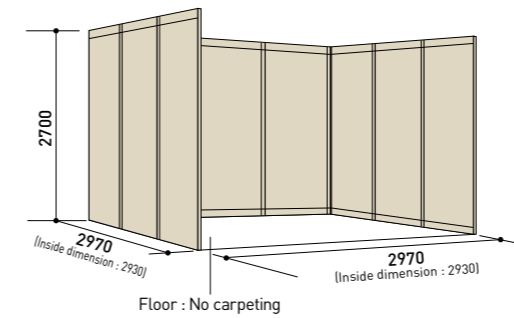

- Lectures and Seminars
- Poster Session
- Exhibitor Presentations

Booth Specifications and Exhibition Fee

Booth specifications

1 booth (width 3 m × depth 3 m × height 2.7 m)

The basic booth shall be set up according to system panel specifications, and the rear and side walls shall be installed by the sponsor.

Exhibition fee *Please be advised that a consumption tax rate as of March 13, 2019 will be applied to the specified price.

Exhibition fee (per booth) 350,000 yen

Layout of booths

The booths can be arranged in four ways – row, block, island (double), island (triple), – to suit the exhibits and the method of installing the booths. Between 1 and 9 booths can decorate the booths to a height of **4.0m**. (a one-meter setback from the passage and from the basic panel can accommodate a decoration of up to 3.6 meters.)

In addition, exhibitors who use an island booth consisting of at least 10 booths can decorate the booths to a height of 5 m.

Row type

Block (double) booths

At least 4 booths

Island (double) booth

At least 10 booths

Island (triple) booths

12, 15, or 18 booths

At least 12 booths

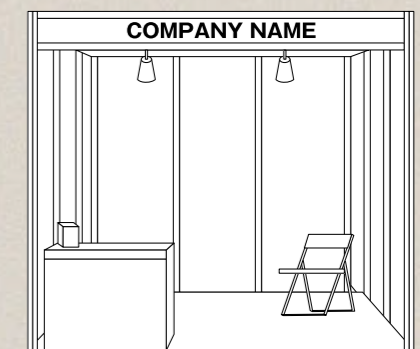

Turnkey Booth Package

A simple and quick booth package plan is available

Booth walls (system panels), parapet, reception counter, flooring (carpeting), lighting (fluorescent 40 W: 1 light, spotlights 100W: 2 lamps), 1 foldable chair, business card drop-box: 1, signboard (for exhibitor / company name), electric power use up to 1 kW included (higher power consumption charged separately) usage fees.

Booth price + 120,000 yen (excluding tax)

Exhibitor Presentation

Exhibitor Presentation provides exhibitors with opportunities to introduce their products and the latest technologies at the conference room provided in the exhibition hall. Inviting your prospective customers to the presentation is obviously an excellent way of not only introducing your products or technologies, but also promoting your corporate image for many visitors. The room will be reserved with additional fee.

Participation Fee : 1 session per 45 minutes 50,000 JPY

*Please be advised that a consumption tax rate as of March 18, 2019 will be applied to the specified price. For further details and application, please visit the official website.

*Note : No cancellation is admitted after the acceptance of applications because of the first-come, first served basis.
